

Voisey's Bay Mine Expansion Project

Vale has sanctioned the development of the underground deposit at Voisey's Bay. This will extend the life of the operation until at least 2032.

An additional 400 full-time positions will be created at Voisey's Bay to support the underground operations and expanded site services.

Residents are encouraged to attend one of the following information sessions to find out more about this exciting project and the potential employment opportunities that will be available in the future.
