For Immediate Release

## COVID-19 Update

The Nunatsiavut Government wishes to provide the following COVID-19 update:

- As of today, January 18, there have been 24 confirmed cases of COVID-19 in the community of Nain.
  - There is currently one active case in the community.
  - There are currently no presumptive positive cases in the community.
  - Twenty three (23) of the cases have recovered.
- There are no confirmed or presumptive cases in any other Labrador Inuit community.
- Newfoundland and Labrador remains in COVID-19 Alert Level 4 in an effort to decrease transmission of the virus.

The Nunatsiavut Government is also advising that the second vaccine dose for children between five and 11-years of age will begin in all Labrador Inuit communities in early February.

COVID-19 vaccine is still available for:

- those 12 years of age and over for first and second dose; and
- those 18 years and over, first, second and booster shots.

To make an appointment, please contact your community Public Health office.
